

## Who We Are

Clean Rivers Cooperative, Inc. is one of the most respected oil spill response organizations in the Northwest. Clean Rivers provides its members with a cost effective, turn-key solution that exceeds regulatory obligations. Clean Rivers and its contractors are ready to respond 24 hours a day, 7 days a week.

## Role of the Response Manager

Clean Rivers Cooperative utilizes a continual rotation of Response Managers (a Primary and Backup) ready to respond to any incident on the Lower Columbia River.

This mix of Staff and Independent Contractors facilitate efficient response actions for Member Facilities and covered vessels.

The Response Manager is the "First Call" in a response and will activate equipment and response resources. They are the subject matter expert for response activities, supporting members and engaging with regulatory agencies.

## Clean Rivers Area of Interest

### Lower River Zone:

The area of interest below the I-205 bridge in Portland, OR and to the mouth of the Columbia River in Astoria, OR.

### Upper River Zone:

The area of interest above the I-205 bridge in Portland, OR to Pasco, WA along the Columbia River and to Lewiston, ID along the Snake River.
